CARBINE TUNGSTEN LIMITED SHARE PURCHASE PLAN

Following the positive Hard Rock feasibility Study outcomes announced to the ASX on 28th August 2012 and the encouraging level of interest in the project from off take and funding participants. The Board of Carbine Tungsten Ltd has decided to make the development of the Hard Rock assets its primary focus.

The Board is seeking to progress its Hard Rock project to the next stage of development by completing Queensland Government permitting approvals for the project. This step, once completed, provides a level of surety for the project to proceed within the stated timeframe and therefore provides greater incentive for capital funding investments into the project. The Board wish to enhance the value of the Hard Rock project assets by conducting the necessary environmental and engineering program required to complete the project approvals phase of the project.

In order to fund this program of works and provide for working capital, CNQ intends to offer a Share Purchase Plan (SPP) to all shareholders of up to a maximum of 30% of the issued capital. If fully subscribed this would raise roughly \$6 million through the issue of 82,788,815 shares at a price of 7.5 cents. Shareholders will be able to purchase up to \$15,000 worth of shares under the SPP at a price of 7.5 cents per share, this being a 18.5 % discount on the Company's value average weighted price (VWAP) share price over the last 30 days on which sales in the Company's shares were recorded. CNQ reserves the right to scale back applications.

All shareholders on the register on 1st February 2013 (record date) will be entitled to participate in the SPP.

Documentation for the SPP will be finalised shortly and will then be released to the ASX and mailed to shareholders.
